Summary

Aspiring Software Engineer with hands-on experience building scalable full-stack web applications, backend systems, and AI-powered solutions. Skilled in React, Next.js, Node.js, Express.js, PostgreSQL, MongoDB, and TypeScript, with expertise in developing responsive user interfaces, designing RESTful APIs, and writing clean, maintainable code. Passionate about solving real-world problems by delivering reliable, production-ready software.

Experience

Full Stack Engineer April 2026 – Present
CarbonSynq Earth Pvt. Ltd. *Noida, India*

- Developed reusable and responsive UI components using React, Next.js, and Tailwind CSS to build scalable web applications.
- Collaborated with cross-functional teams to design and implement scalable backend architecture, RESTful APIs, and database integrations.
- Built production-ready features, optimized application performance, and maintained clean, reusable code following Git-based development workflows.

Search Engine Optimization Intern July 2024 – Nov. 2025
Birbal Bits *Remote*

- Executed on-page and off-page SEO strategies to improve website visibility and increase organic search performance.
- Managed Quora, Reddit, and influencer marketing campaigns by coordinating partnerships and driving community engagement.
- Collaborated across multiple projects to optimize digital presence, analyze performance metrics, and support growth initiatives.

Projects

Bharat Code | *Next.js, React.js, Node.js, Express.js, PostgreSQL, Prisma, Tailwind CSS* GitHub

- Built a LeetCode-inspired coding platform where users can solve DSA problems through an integrated online code execution system.
- Implemented secure authentication, coding playlists, submission history, and progress tracking for personalized learning.
- Designed scalable RESTful APIs and optimized database queries to deliver a fast and seamless coding experience.

SnipLink | *React.js, Node.js, Express.js, MongoDB, Tailwind CSS* Live | GitHub

- Developed a full-stack URL shortening platform that generates unique short links and securely redirects users to original URLs.
- Built an analytics dashboard to monitor click counts, URL performance, and usage statistics through an intuitive interface.
- Designed responsive frontend components and scalable RESTful APIs while implementing efficient database models for URL management.

Technical Skills

Languages: JavaScript, TypeScript, Python
Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, REST API Development, Socket.io
Databases: MongoDB, Mongoose, PostgreSQL
Tools: Git, GitHub, Docker, Postman, Vercel
Core Concepts: Data Structures, Algorithms, Object-Oriented Programming (OOP), System Design

Education

B.Tech in Computer Science and Engineering 2024 – 2028
Galgotias College of Engineering and Technology *CGPA: 8.0/10*

Class XII (CBSE) 2023
Saraswati Vidya Mandir Senior Secondary School *Percentage: 81.2%*
